TECHNICAL SKILLS

- C/C++
- MERN Stack
- Javascript
- Wordpress
- Bootstrap
- TailwindCSS
- Github

PROJECTS

'QUIZ' WEBAPPLICATION | LIVE | SOURCE CODE

- Developed an interactive quiz application using pure JavaScript, focusing on real-time logic handling and user experience.
- Implemented dynamic question loading, timer functionality, and score calculation logic.
- Applied DOM manipulation techniques to create a responsive and engaging interface.
- Improved code efficiency by using modular functions and maintaining clean code practices with responsiveness

'TODO list' WEBAPPLICATION | LIVE | SOURCE CODE

- Created a simple yet responsive To-Do List application with theme switching (light/dark mode).
- Used MongoDB for data storage
- Applied media queries to ensure smooth responsiveness on different devices.
- Implemented basic CRUD functionality (Add, Edit, Delete tasks) with clean UI.

'BRIJESH' Portfolio | LIVE | SOURCE CODE

- Build my Portfolio Web-application using React and Tailwind CSS.
- Centered around the theme of GitHub and its applications.

ACHIEVEMENTS

- Solved 520+ problems on LeetCode, showcasing strong grasp of DSA and problem-solving skills.
- Winner - Intracollege Hackathon.
- 1st Place-Intercollege Problem-Solving Competition, demonstrating logical thinking and algorithmic proficiency.
- 2-time Winner - College Debate Competitions, highlighting strong communication, critical thinking, and argumentation skills.
